YEAR 4 · TIMES TABLES CHECK

Multiplication Check Practice

4 practice checks of 25 questions, just like the real Year 4 test in June. Answers and a score tracker included.

FREE!

Starberry Nova: In the real check you get 6 seconds per question. I can eat a strawberry in 6 seconds. Coincidence? I think not.

About the real check

1. Every Year 4 child in England takes it on a screen in June.
2. **25 questions**, tables 2 to 12. Each one appears for just **6 seconds**.
3. It's only multiplication, and the 6, 7, 8, 9 and 12 times tables come up the most.
4. There's no pass mark, but fast, confident recall makes everything else in maths easier.

How to use these sheets

1. **Paper practice:** a grown-up reads each question aloud, counts 6 seconds, then moves on.
2. **Solo practice:** set a timer for **2 minutes 30 seconds** (6 seconds × 25) and go!
3. Mark it with the answers at the back. Write the score on the tracker.
4. Practise the facts that went wrong for 2 minutes a day, then try the next check.

Professor Hoot: The 9s trick: hold up 10 fingers. For 9 × 4, fold down finger 4. You see 3 fingers, then 6 fingers: 36!
